

Q.1. Are there any cloud service providers in Nepal? If yes, what are those?

Answer:

Simply, yes, there are some providers that provide cloud services in Nepal. Basically they do not fulfill all the requirements meaning that they lack all the adequate resources but also they are developing and are continuously growing. Some of the cloud service providers are:

Ohm Data Center

Eastlink Technology

Ligontech(ucloud)

Cloud Himalaya

Miles web

Setup AWS Educate Account.

(yes its done and verified As well)
