Pre-Board Examination, 2018

BIT, First Year, Second Semester Subject: Introduction to C++ programming Set: A				Full Marks : 100 Pass Marks : 40 Time : 3 hrs		
Soloet the	correct answers:	Group A (Multiple C	hoice Questions)	[30x1=30]		
1.		g term is used for a functi	on defined inside a class?			
	(a) Member Variable	(b) Member function		(d) Classic function		
2.	` '		• •	ents in a function call if it is		
	(a) Call by value	(b) Call by reference	(c) Default arguments	(d) Call by pointer		
3.	Why reference is not sa	ame as a pointer?		• •		
	(a) A reference can nev	-				
	(b) A reference once es	stablished cannot be chan	ged.			
	(c) Reference doesn't n	eed an explicit dereferen	cing mechanism.			
	(d) All of the above.					
4.	Local Variables can be	access?				
	(a) Code block enclos	ed in braces { }.				
	(b) Code block enclosed in bracket ().					
	(c) Code block enclose	ed in square bracket [].				
	(d) None of the above					
5.	<i>cout</i> is a/an	_·				
	(a) operator	(b) function	(c) object	(d) macro		
6.	How many types of po	lymorphisms are support	ed by C++?			
	(a) 1 (b) 2	(c) 3	(d) 4			
7.	Which of the following	g approach is adapted by	C++?			
	(a) Top-down	(b) Bottom-up	(c) Right-left	(d) Left-right		
8.	Which of the following (a) The types of argur (b) The order of argur (c) The number of arg (d) Both A and B.	ment is different.	n overloading?			
9.	Which of the following (a) >> (b) <-	g operator is overloaded f	for object cout? (d) =			
10.	Which of the following	g is the correct class of th	e object cout?			
	(a) iostream	(b) istream	(c) ostream	(d) ifstream		
11.	Which of the following	g operator cannot be over	loaded?	. ,		
	(a) =	(b) ==	(c) +	(d) ::		
12.	Which of the following	g operator can be overload	ded?			
	(a).	(b) &	(c) sizeof	(d) ?.		
13.	A constructor is called	whenever				
	(a) an object is declared					

(b) an object is used(c) a class is declared

	(d) a class is used					
14.	Overload function in C					
	(a) means to have ma	ny functions with	the same name			
	(b) means to have man	y functions with sa	me number and type of arg	uments		
	(c) means to have func	tions with different	names			
	(d) All of the above					
15.	Operator overloading is	S				
	(a) making C++ operat	ors work with obje	cts			
	(b) giving new meaning	g to existing C++ o	perators			
	(c) making new C++ o	perator				
	(d) both a and b					
16.	The differences between	en constructors and	destructor are			
	(a) constructors can take arguments but destructor can't					
	(b) constructors can be	overloaded but des	structors can't be overloade	ed		
	(c) both a and b					
	(d) None of these					
17.	A destructor takes	argument/argument	cs.			
	(a) 1	(b) 2	(c) 3	(d) 0		
18.	The fields in a class of	a C++ program are	by default			
	(a) protected	(b) public	(c) private	(d) None of these		
19.	Which function is used (a) seekp()		om the end of the file objection (c) both seekg & seekp	et? (d) none of these		
20.	-	or	. keyword must be used alo	ong with the operator to be		
	overloaded.	verload	(a) void (d) anaratar		
21.	(a) over (b) ov Which of the following) operator		
21.	(a) default constructor	is not a type of co.	iistructor?			
	(b) copy constructor					
	(c) friend constructor					
	(d) copy constructor					
22.		torm is used for a	function defined inside a cl	acc 2		
22.	(a) Member variable	term is used for a	runction defined inside a c			
	(b) Member function					
	(c) Class function					
	(d) Classic function					
23.	* /	concept of OOPS	allows compiler to insert a	rguments in a function call if it i		
	not specified?					
	(a) Call by value					
	(b) Call by reference					
	(c) Default arguments	3				
	(d) Call by pointer					
24.	How many types of po	lymorphisms are su	ipported by C++?			
	(a) 1	(b) 2	(c) 3	(d) 4		
25.	Which of the following					
	(a) A constructor is called at the time of declaration of an object.					
	(b) A constructor is ca		•			
	(c) A constructor is ca	lled at the time of	declaration of a class.			

(d) A constructor is called at the time of use of a class.

- 26. Which among following is correct syntax of closing a file in c++?
 - (a) myfile\$close();
- (b) myfile@close();
- (c) myfile:close();
- (d) myfile.close();
- 27. In context to file handling, which of the following are file handling operations?
 - (a) opening
 - (b) closing
 - (c) read/write
 - (d) all of the mentioned
- 28. Which of the following methods can be used to open a file in the file handling?
 - (a) Using open()
 - (b) Constructor method
 - (c) Destructor method
 - (d) Both a and b
- 29. A constructor that does not have any parameters is called...... constructors.
 - (a) custom
 - (b) dynamic
 - (c) static
 - (d) default
- 30. What is correct about the static data member of a class?
 - (a) A static member function can access only static data members of a class.
 - (b) A static data member is shared among all the object of the class.
 - (c) A static data member can be accessed directly from main().
 - (d) Both A and B.

Group B

Answer any six questions:

[6x5=30]

- 1. Explain cin and cout objects with examples.
- 2. What is an global variable with example.
- 3. Explain do while loop with an example.
- 4. What is reference variable. Give an example.
- 5. Write a program to input student's record and display it using class and object.
- 6. Write a program to input any ten numbers in an array and find the sum of these numbers.
- 7. What is multithreading? Explain.
- 8. Write a program to read the contents of a text file and display them on the screen using appropriate method.

Group C

Answer any two questions:

[20x2=40]

- 9. Explain inheritance. Demonstrate a program implementing inheritance.
- 10. Explain the selection structure. Explain if, else if and switch case with examples.
- 11. Explain function. What is function overloading? Demonstrate programs to overload functions with different types of arguments and different number of arguments.

Pre-Board Examination, 2018

	t Year, Second Semest Introduction to C++ pr			Full Marks : 100 Pass Marks : 40 Time : 3 hrs	
		Group A (Multiple Ch	oice Questions)	F20 1 201	
Select the	correct answers:			[30x1=30]	
1.	Hiding the complexity	is known as			
	(a) Abstraction	(b) Encapsulation	(c) Data hidi	ng (d) Composition	
2.	In C++ code, variables	s can be passed to a function	on by		
	(a) Pass by value	(b) Pass by reference	(c) Pass by pointer	(d) All of the mentioned	
3.	Which of the following	g can not be used as identi-	fiers?		
	(a) Letters (b) D	igits (c) Underscore	es (d) Spaces		
4.	Which of the following	g parameter passing mecha	anism is/are supported l	by C++ but not in C?	
	(a) Pass by value	(b) Pass by reference	(c) Pass by pointer	(d) All of the mentioned	
5.	Which is correct syntax	х ?			
	(a) myfile:open ("exam	nple.bin", ios::out);			
	(b) myfile.open ("exa	mple.bin'', ios::out);			
	(c) myfile::open ("exa	mple.bin", ios::out);			
	(d) myfile.open ("exan	nple.bin", ios:out);Spaces			
6.	Which of the following	g storage classes have glob	oal visibility in C++?		
	(a) Register (b) St	atic (c) Auto	(d) Extern		
7.				s, so that they automatically	
	-	rent's" members, plus its o			
	(a) Overloading	(b) Inheritance	(c) Polymorphism	(d) Encapsulation	
8.		ramming, by wrapping up	characteristics and beh	navior into one unit, we achieve	
	(a) Data Abstraction	(b) Data Encapsulatio	on (c) Data Hiding	(d) All of the mentioned	
9.	The static member vari	•	n (c) Data Hunig	(d) An of the mentioned	
<i>)</i> .	(a) 0	(b) 1	(c) 2	(d) -1	
10.		t of the following code seg		(u) 1	
10.	char $C1 = 'A'$, $C2 = 'I$	•	Sment.		
	char *i, *j;	, , , , , , , , , , , , , , , , , , ,			
	i = &C1 j = &C2				
	*i = j;				
	(a) A	(b) D	(c) AD	(d) None	
11.	What does inheritance	allows you to do?			
	(a) create a class				
	(b) create a hierarchy	of classes			
	(c) access methods				
	(d) None of these				
12.	What is the syntax of in	nheritance of class?			
	(a) class name				
	(b) class name: access specifier				
	(c) class name : access	s specifier class name			
	(d) None of these				

How many types of inheritance are there in C++?

13.

	(a) 2	(b) 3	(c) 4	(d) 5	
14.	is initialized	when an object is created			
	(a) Constructor	(b) Destructor	(c) Array	(d) Pointer	
15.	The access sp	ecifier allows functions of	or data to be accessible to	o other parts of the program.	
	(a) private	(b) protected	(c) public	(d) inherited	
16.	Identify the correct state	ement regarding scope of	variables.		
	(a) Global variables are	declared in a separate file	e and accessible from an	y program.	
	(b) Local variables are	declared inside a funct	ion and accessible with	in the function only.	
	(c) Global variables are	declared inside a function	n and accessible from an	ywhere in program.	
	(d) Local variables are d	leclared in the main body	of the program and acce	essible only from functions.	
17.	Which header file is use	ed for reading and writing	g to a file?		
	(a) #include <iostream></iostream>				
	(b) #include <fstream></fstream>				
	(c) #include <file></file>				
	(d) None of the mention	ned			
18.	Which constructor func	tion is designed to copy of	objects of the same class	type?	
	(a) default constructor				
	(b) object constructor				
	(c) dynamic constructor				
	(d) copy constructor				
19.	A function with the sam of that class	ne name as the class, but jes.	preceded with a tilde cha	racter (~) is called	
	(a) constructor	(b) destructor	(c) function	(d) object	
20.	(a) constructor Which stream class is to		(c) function	(d) object	
	Which stream class is to (a) ofstream	o only write on files ? (b) ifstream	(c) fstream	(d) object (d) iostream	
20.21.	Which stream class is to (a) ofstream Which of the following a	o only write on files ?	(c) fstream	-	
	Which stream class is to (a) ofstream Which of the following (a) Top-down	o only write on files ? (b) ifstream	(c) fstream	-	
	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up	o only write on files ? (b) ifstream	(c) fstream	-	
	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left	o only write on files ? (b) ifstream	(c) fstream	-	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right	o only write on files ? (b) ifstream approach is adapted by	(c) fstream C++?	(d) iostream	
	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following	o only write on files ? (b) ifstream	(c) fstream C++?	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction	o only write on files ? (b) ifstream approach is adapted by	(c) fstream C++?	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation	o only write on files ? (b) ifstream approach is adapted by	(c) fstream C++?	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance	o only write on files ? (b) ifstream approach is adapted by	(c) fstream C++?	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping functions are performed	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new observed.	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping functions are performed ass bject	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new ob (c) Construct a new fur	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping functions are performed ass bject	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new observed.	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping functions are performed ass bject	(c) fstream C++? ng up of data and functi	(d) iostream	
21.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new ob (c) Construct a new fur (d) Initialize objects	o only write on files ? (b) ifstream approach is adapted by concepts means wrapping functions are performed ass bject	(c) fstream C++? ng up of data and functi by a constructor?	(d) iostream	
21.22.23.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new ob (c) Construct a new fur (d) Initialize objects	concepts means wrapping functions are performed assuject metion	(c) fstream C++? ng up of data and functi by a constructor?	(d) iostream	
21.22.23.	Which stream class is to (a) ofstream Which of the following a (a) Top-down (b) Bottom-up (c) Right-left (d) Left-right Which of the following a (a) Abstraction (b) Encapsulation (c) Inheritance (d) Polymorphism Which of the following a (a) Construct a new class (b) Construct a new fur (c) Construct a new fur (d) Initialize objects Which of the following a I. All operators can be o	concepts means wrapping functions are performed assuject metion	(c) fstream C++? ng up of data and functi by a constructor? ments given below?	(d) iostream	

(b) Both I and II are false.

(c) Only II is true.

- (d) Both I and II are true.
- 25. Which of the following is not a type of inheritance?
 - (a) Multiple
 - (b) Multilevel
 - (c) Distributive
 - (d) Hierarchical
- 26. Which inheritance type is used in the class given below?

```
class A : public X, public Y
{}
```

- (a) Multilevel inheritance
- (b) Multiple inheritance
- (c) Hybrid inheritance
- (d) Hierarchical Inheritance
- 27. Which of the following access specifier is used as a default in a class definition?
 - (a) protected
- (b) public
- (c) private
- (d) friend

- 28. What is use of eof()?
 - (a) Returns true if a file open for reading has reached the next character.
 - (b) Returns true if a file open for reading has reached the next word.
 - (c) Returns true if a file open for reading has reached the end.
 - (d) Returns true if a file open for reading has reached the middle.
- 29. Which is correct syntax?
 - (a) myfile:open ("example.bin", ios::out);
 - (b) myfile.open ("example.bin", ios::out);
 - (c) myfile::open ("example.bin", ios::out);
 - (d) myfile.open ("example.bin", ios:out);
- 30. Which among following is used to open a file in binary mode?
 - (a) ios:app
- (b) ios::out
- (c) ios::in
- (d) ios::binary

Group B

Answer any six questions:

[6x5=30]

- 1. What is selection structure? Explain.
- 2. Differentiate between float and integer data types with examples.
- 3. What is type conversion? Explain.
- 4. What is pointer? Give example of passing values using pointer.
- 5. Write a program to input a number and find out its square using passing by value method.
- 6. Explain the library function getline with an example.
- 7. Write a program to overload binary operator +.
- 8. Write a program to write data in a file using appropriate method.

Group C

Answer any two questions:

[20x2=40]

- 9. Explain different types of loop structure with examples.
- 10. What is an array. Explain different types of array with examples.
- 11. What are constructors. Explain different types of constructors with examples.
